## Fragile X premutation in women: recognizing the health challenges beyond primary ovarian insufficiency

Luis R. Hoyos<sup>1</sup> · Mili Thakur<sup>2,3</sup>

ds

Received: 30 October 2016 / Accepted: 25 November 2016  
© Springer Science+Business Media New York 2016

**Abstract** Fragile X premutation carriers have 55–200 CGG repeats in the 5' untranslated region of the *FMR1* gene. Women with this premutation face many physical and emotional challenges in their life. Approximately 20% of these women will develop fragile X-associated primary ovarian insufficiency (FXPOI). In addition, they suffer from increased rates of menstrual dysfunction, diminished ovarian reserve, reduction in age of menopause, infertility, dizygotic twinning, and risk of having an offspring with a premutation or full mutation. Consequent chronic hypoestrogenism may result in impaired bone health and increased cardiovascular risk. Neuropsychiatric issues include risk of developing fragile X-associated tremor/ataxia syn-

premutation. Awareness of these risks and correlation of the various manifestations could help in early diagnosis and coordination of care and services for these women and their families. This paper reviews current evidence regarding the possible conditions that may present in women with premutation-sized repeats beyond FXPOI.

**Keywords** Fragile X premutation · Primary ovarian insufficiency · Premature ovarian insufficiency · Fragile X-associated tremor/ataxia syndrome · Health concerns in fragile X premutation carriers

# Búsquedas y recuperación de contenido

Recuperación de información por búsqueda avanzada

## Uso de operadores booleanos, truncaciones

**NEAR:** devolverá resultados en los que los términos de búsqueda se encuentran dentro de las diez palabras de la palabra "testing", en cualquier orden. Por ejemplo: "system NEAR testing" proporciona resultados en los que la palabra "system" cerca de la palabra "testing".

**Asterisco (\*)** se interpreta como un sustituto para cualquier número de caracteres. Por ejemplo, una búsqueda de hea \* devolverá resultados que contengan cualquier palabra que empiece por "hea", como "head", "heats", "health", "heated", "heating". \*La búsqueda con asterisco funciona mejor cuando hay al menos 3 caracteres antes del operador.

**Signo de interrogación (?)** dentro de una búsqueda, se interpreta como un sustituto de una sola letra. Por ejemplo, una búsqueda de hea? solo se obtendrán resultados que contengan palabras de 4 letras que empiezan por "hea", como "head", "heat", "heal".

## Diabetologia

ISSN: 0012-186X (Print) 1432-0428 (Online)

### Description

Diabetologia publishes original clinical and experimental research within the field of diabetes. We are interested in papers that convey new information or insight into any aspect of the condition, ranging from basic science to clinical applications. These are judged in terms of their scientific quality, novelty, relevance and interest to our broadly based readership.

Diabetologia also hosts editorials, commentaries, debates ... [show all](#)

## Búsqueda Simple: morbid obesity vs “morbid obesity”

uso de comillas

The screenshot shows the Springer Link search interface. The search bar at the top contains the query "morbid obesity". Below the search bar, the results summary is displayed: "7,326 Result(s) for ""morbid obesity""". The results are sorted by relevance. A sidebar on the left provides filtering options for content type (Article: 7,320, Chapter: 5, Reference Work Entry: 1), discipline (Medicine: 6,805, Biomedical Sciences: 441, Life Sciences: 275, Public Health: 144, Social Sciences: 133), and subdiscipline (Surgery: 4,868, Internal: 2,021, Gynecology: 692, Oncology: 379). The main search results page displays two articles. The first article is titled "Guidelines for laparoscopic and conventional surgical treatment of morbid obesity" from "Surgical Endoscopy (2001)". It includes a link to "Download PDF (21 KB)". The second article is titled "Efficacy of Laparoscopic Sleeve Gastrectomy as a Stand-alone Technique for Children with Morbid Obesity" and "BioEnterics® Intragastric Balloon for Treatment of Morbid Obesity in Prader-Willi Syndrome: Specific Risks and Benefits" from "Obesity Surgery (2009)". It includes links to "Download PDF (58 KB)" and "View Article". A sidebar on the right indicates there are 2,471 preview-only results available.

# Búsquedas y recuperación de contenido

Recuperación de información por búsqueda avanzada

## Uso de operadores booleanos, truncaciones

**Comillas (" ")**: Una búsqueda con varios palabras entre comillas devolverá sólo los resultados que las contengan en ese orden exacto.

"single-walled carbon nanotubes"

**OR**: permite que los resultados sean devueltos, incluso cuando sólo una de las palabras contienen la información. Por ejemplo: trigo **OR** maíz dará resultados que incluyen cualquiera de los términos "trigo" o "maíz".

Wheat **OR** Maize

**NOT**: excluye los resultados que contengan el término tras el NOT. Por ejemplo trigo **NOT** maíz dará resultados que incluyen el término "trigo", pero excluye el término "maíz".

Wheat **NOT** Maize

**AND**: proporciona los mismos resultados que el valor por defecto en nuestro sitio. Si usted busca "evolutionary patterns of families", la búsqueda que realmente se lleva a cabo será (**evolutionary AND patterns AND of AND families**).

evolutionary patterns of families
